These references, which are listed on the accompanying Form PTO-1449 (submitted in duplicate), were either cited by or submitted to the Patent Office in application no. 09/573,884, from which the present application claims priority under 35 U.S.C. § 120. Pursuant to 37 C.F.R. § 1.98(d), no copies of the references are being provided herewith.

The documents listed in Group A are cited because they were either known to applicant or cited in U.S. Patent No. 5,752,521 (the basis of reissue patent application

no. 09/573,884, from which the present application claims priority).

The documents listed in Group B are cited because they were recently discovered during a prior art search of the Japanese JICST database.

The documents listed in Group C are cited because they were recently discovered during a prior art search of the Japanese NACSIS database.

The document listed in Group D is cited because its Japanese language abstract was recently discovered during a prior art search of the Japanese IPDL database. Although a total of 68 Japanese documents were originally discovered, only the listed document was deemed potentially relevant (with the help of a Japanese language translator).

The document listed in Group E is cited because it was recently discovered during a prior art search performed by the European Patent Office.

It is respectfully requested that these documents be: (1) fully considered by the Patent and Trademark Office during the examination of this application; and (2) printed on any patent which may issue on this application. Applicant requests that a copy of Form PTO-1449, as considered and initialed by the Examiner, be returned with the next communication.

An early and favorable action is respectfully
requested.

Respectfully submitted,
